8.6 If item 8.5 is less than 6 months, please provide answers to the following questions:

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No

Included in the current month net operating cash flows of \$112k is one item considered to be abnormal on the basis that it is not a reoccurring expense.

\$31k of the \$66k administration and corporate cost for the month relates to legal and other costs related to the subsequently discontinued application in the Supreme Court of New South Wales.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes

The company received its FY25 R&DTI refund resulting in a cash inflow of \$90k in the month of November 2025.

The company continually reviews its funding options to ensure that it raises sufficient cash to maintain its operating activities. Based on the success of past capital raising activities it expects that any future capital raising activities will continue to be successful.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes

Based on the success of previous capital raisings, the implementation of the contract to manufacture and supply to TBS (announced 28 August 2025) and progress executing the commercialisation roadmap initiatives.

Note: where item 8.5 is less than 2 months, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.

NOTE: The information provided in this Appendix 4c does not include financial information of Papyrus Egypt, as Papyrus Australia has written down the value of its investment to zero at the end of FY25. The impairment does not affect PPY's shareholding interest in PPYEg and EBFC, which remains unchanged.
